Fine Rains Help Crops In General But City Lakes Catch Very Little

People in this community are not alone in wanting more rain water, but all of this section, including more than West Texas was badly in need of rains till Friday and Saturday of last week. Rains came and they came gently and almost bountifully, till more than one and one-quarter inches fell. To call it a pretty rain is too mild a term. It was beautiful, refreshing, wonderful, just right for crops and ranch land.

There is considerable wheat in this part of the country and it was needing rain badly, and now that a good season is in the ground, it will boom into an almost perfect crop. Yes, it will need more rain and so will lots of things.

Many farmers had already planted early feed crops, and some had ventured to plant a few acres of cotton. It may make them a stand, if they planted more than a plenty of seed.

Someone will ask if Hamlin's lakes, and especially if the New Lake caught any water. Reliable information is that the western part of the country got enough rain for the water to run some, in fact, enough to make a few feet in the upper lake. This has been opened into the lower lake. But not any was caught in the New Lake on Dry California Creek.

Hamlin was not suffering for water, except a softer quality. The fish are still safe and the crop is sure to be bountiful May 1. Hamlin's old lakes were replenished last week by lots of fish from Anson's drying up lake.

Some people may have become impatient about getting water in the New Lake, but records show that plenty of water is due to roll down into that reservoir soon.

Letting Folks Know What's Going On In The Hamlin School System

SCHOOLS INSPECTED

The Hamlin schools were visited by N. R. Sandlin, Deputy State Supt. of public instructions, and his comments were most favorable regarding the progress of our schools. It is the custom of the State Department of Education to send these superintendents to visit the public schools of Texas each year and make recommendations as to how they may improve their progress and to check upon the work the schools are doing, to issue credits of affiliation and in general lend their assistance.

Mr. Sandlin described the Hamlin schools as being modern and progressive. He visited most all the teachers in both the elementary and high school, and complimented the school board and the administration on their efforts and progress they had made toward laying the foundation for building a negro school.

He examined the blue print for the negro school and offered suggestions that may prove beneficial toward securing a grant from the government in assisting to build this school.

It is hoped that the application for PWA grant for this purpose may be submitted by the 15th of this month.

Maybe Three Thousand Singers Were In Hamlin At Convention Sunday

Sunday was one of those ideal spring days, following a beautiful rain all over West Texas. It made the natives have music in their hearts, and in this great day, who fears the road after a rain. So they came from every corner, from every adjoining county, and from counties that do not join Jones.

The reason, you know, was the Jones County Singing Convention, and it was the forty-seventh time it had met in Jones County. This year it was Hamlin's time to welcome them. Hamlin did credit to herself, but what community in Jones county can now seat all the folks who come from far and near to a big singing? Hamlin's High School auditorium is the largest of its kind in the county and it is safe to say that only about one-third or maybe half of the crowd could even peep into the building. The rest of 'us' sat on the outside or stood and listened to the Gulf Company loud speaker. Just like a radio. Then the sun began to dim, and clouds to darken from the north and the eclipse was on, but not till new officers were chosen for next year. All were re-elected, and Anson was voted the next place to assemble. O yes, there were at least 2,500 present, maybe 3,000.

Base Ball Starts Sat.

In City's New Park

Hamlin's Crude Oilers are still on the map, and when you hear the word "Crude Oilers," it means nothing else but BASE BALL.

Hamlin's new city park will be used for the first time this Saturday when they tackle the Big Spring Barrons, from the Cat farm of that place.

Hamlin Oilers are ranked as the best players in this section of Texas, and if one cares to see them in action for the first time in our New Park, go down at 4:00 P. M. Saturday, April 13th, just after the drawing and see 'em swat the ball.

Miss Mary Beth Moody, a student in S. M. U., Dallas, spent the week end with her parents, Mr. and Mrs. J. E. Moody.

Who Will Be Typical Family From Hamlin?

Each affiliated town in the West Texas Chamber of Commerce has the right to select ONE "Typical Family," who will be in the group of similar families from which a "Typical West Texas Family" will be chosen to represent this section as one of the 33 such families at the New York World's Fair, with all expenses paid by the West Texas Chamber of Commerce. Who will this family from West Texas be?

It may be a Hamlin community family. Such a family must be willing to spend two weeks out of the state, must consist of the husband, wife and not over TWO children. Who do you think can meet this specification?

W. C. Russell Formally Announces For State Representative

W. C. (Ted) RUSSELL, HAMLIN

To the Voters of Jones and Shackelford Counties:

For weeks a number of citizens have approached me on the subject of being a candidate for State Representative of the 115th District. Like many other men, I am busy, but I feel our legislative body demands the service of citizens who have had business experience and who are willing to make the sacrifice necessary to serve in this important capacity.

I am 41 years of age, have lived in Jones County 30 years, am married, and have two sons. I have been engaged in the banking business for twenty years and have served the civic and commercial interests of my home town as City Secretary, President of the School Board, and have had other affiliations which would be unnecessary to mention.

The general business experience and the knowledge I have of the needs of our district should qualify me to give you able representation in the affairs of our State.

My record as a citizen is an open book, and I urge you to express your interest to the extent that you make any necessary investigation as to my character, ability, honesty, and integrity.

If elected to this important office, I will co-operate with the other branches of our Government and will render you the best possible honest, fair, and efficient service.

Sincerely yours,

W. C. RUSSELL

Mrs. H. C. Dodson has as her guest this week her mother, Mrs. J. W. Alexander of Burkburnett.

Forces Determined to Make And Keep Hamlin Cleaner

According to circulars that are being distributed over Hamlin, signed by the Mayor, The City Council, The Woman's Literary Club, The Schubert Music Club, The Lions Club and The Rotary Club, it would seem that determined efforts are underway to make Hamlin cleaner and to keep Hamlin clean.

It is in place at this point, in the Herald, to explain at least to our friends of the farming communities why so much is always said about "keeping the town clean." If one will look about any farm home, barns, lots, outhouses, fence-rows, and almost anywhere, they will find something that could be made to look cleaner and more sanitary. But one place is not so bad, while here in the little town, houses, fences, out-houses, ditches, streets, vacant lots, a few hogs, calves, cows, chickens, and a lot of thoughtless children create a larger problem, and therefore it is necessary for newspapers, and clubs and city authorities to keep hammering away to create an atmosphere of cleanliness. It is a matter of self defense. So much for that point.

The manner in which the women of Hamlin have become interested in a cleaner town, the way they went even through rain last Saturday to distribute circulars asking for help and co-operation, is enough to make one understand that they mean business. Already signs of clean-up are on every side.

When Hamlin men, women, boys and girls become conscious of the appearance of a tin can, a piece of paper, a pile of trash, a stinking water hole, and observe the shaggy looks of unkept vacant lots, then and not till then will this community be kept clean when once cleaned up. When people see any place recklessly throwing out tin cans to litter up the neighborhood, and sentiment wells up against it, recklessness will lessen.

Already women are beginning the habit of sticking holes in the bottom of tin cans before throwing them into the back-alley container.

Now here is an idea, too. Instead of paying for prizes for the cleanest place why not make the same \$10.00 pay for 50 hours of real labor clean-off of vacant lots. Let's make our lots "park-like". To do that is to thin out the straggling trees and keep the ground well "policed."

The Herald wants to drop a few words of congratulations to City Marshal Jack Miles for his interest and co-operation in the clean-up. Mr. Miles has a keen eye for improvement, and as far as he can operate, he is going to get a few things going in the right direction. There is one dilapidated ancient business place on Central Avenue he has succeeded in getting moved, and back of it will soon disappear huge piles of rusting, unsightly old autos, and other rubbish. The whole clean-up program depends on the consciousness of the public when their eyes see dirty, ugly things anywhere in town. Somebody should start a movement to make their tier of blocks the cleanest in Texas, if for nothing else but to show up the blocks just across the street. It would be a good contest.

AND A LITTLE BIT OF

A few politicians, especially one "spell-binder" comes out and says, "I'm against all kinds of sales tax because such levy would tax milk and bread, overalls, gingham dresses and work shoes." Now just why did he include the most common kinds of clothes? Just trying to fool some of the poorest unsuspecting folks to gobble up their votes. What about suits of clothes costing \$50.00 to \$100.00, or underwear costing from \$3.00 or \$4.00 a pair; dresses up around \$100.00. And whoever heard of wanting a tax on any kinds of foods, or prescription medicines, except liquor? Buddie, you had better get a better spiel if you care to be elected governor. A lot of folks are poor and not well learned, but a few Poor'n can tell you that one suit purchased by a rich oil man would pay more taxes than a dozen for the fellows who wear mostly overalls and one dress by the woman who can afford silk would bring in more than 35 gingham. Get this buddy, some rich politicians will soon learn that the poorest class of people are not kicking about the sales tax, and you can't get votes trying to fool them.

—T&T—

No s-i-r-e-e Mr. Candidate, when you fix a taxing system that will relieve all the state ad valorem tax, and later the ad valorem for schools, and provide that even the smallest purchaser can have a part in paying

the expenses of government in Texas, you will then provide for the old, the crippled, the blind, and have plenty to spare, and no delinquent taxes. Get on another horse if you want to occupy the "Mansion."

WAR, WAR . . . Once again nations of the earth have been shocked by the progress of aggression of a mighty country over the weak and helpless. Who is it that does not fear for still other small nations? Monday night and Tuesday Germany moved into Denmark. Little Denmark, with hardly a sign of resistance, and Germany sits today astride the little nation's neck. Little Denmark who holds in her hand a freshly signed agreement from Germany that she will not invade her territory. Little Denmark, about twice the size of New Jersey, and a population hardly as much . . . and that is not all . . . little Norway is also in the grip of the self same monster, with Norwegian hearts blood oozing from their veins in defense of liberty . . . little Norway about the size of New Mexico and three million people. Germany wanted a pretext to invade and when she wants she makes an excuse, when she is good and ready to move . . . Some Americans criticize England and France . . . some even are beginning to fear that the Allies are facing defeat. Such fear is not based on history. England is not excited over the taking by Germany of the two small nations, yet she is concerned about their liberty and liberation and that means the little nations will be pulled from under the iron heel. England has lost more in food supplies than hurt from a military standpoint. Formerly England bought \$50,000,000 worth of butter and \$12,000,000 worth of eggs from Denmark. This means that Germany has captured England's butter. And don't we remember some months ago that a big guy in Germany said that they would get "England's butter?" The stroke that Germany took to fight back at the

Noted Singer Appears In Abilene Tonight

Nino Martini, handsome tenor of the Metropolitan Opera Company, will provide one of the season's musical highlights in West Texas, with his concert in the Hardin-Simmons University Auditorium, in Abilene, on Friday night, April 12. Martini's repertoire includes a wide range of classical and contemporary music, with Italian, Spanish, French and English songs and arias,

but he believes that programs should be shaped to please the listener.

"When I sing what pleases me, the audiences applaud, but perhaps only politely," he explained. "But when I sing what the audience enjoys, they are happy, and I am happy because I have pleased them." Martini cannot understand why some concert artists refuse to sing

Allies will mean the first step in her final defeat. This column predicts that every Norwegian foot of coast will be in the hands of England within the next 20 days, and Germany will be completely driven from the seas, except the Baltic. The battle is on to a finish, and resentment is wider and more bitter against Germany than ever, since she has so ruthlessly wronged two more small innocent nations. England is calm, confident, determined and they know their "sea." If England needs butter and eggs, there is plenty in America for her. Denmark's cows can't give milk and butter without hay, and other outside feeds, and where are they to get it now? So as this eventful week passes, nobody can fathom certainly the immediate future.

Keeper Of Cemetery Deserves Compliments

A recent visit to Hamlin's East Cemetery reveals that the Keeper, R. O. Proctor, is doing a good job. In fact, the cemetery is looking better and better each year since Mr. Proctor has been employed. He does most of his work however on the basis of private contract. He has equipped himself for the work, including an extensive line of water hose whereby he can reach any grave under his care with this line from the well. Again Mr. Proctor has determined what will grow in a very dry, hard, shallow soil, and he is not only keeping the personally contracted graves in nice shape but is looking after much of the other part.

This does not mean that your your-loved-one's place is cared for, for Mr. Proctor's first attention is to those plots where a contract for constant care has been made.

None of us enjoy talking about the final resting place, but this is one subject Hamlin people should make broader plans for. The present cemetery is now used to the crowding point and when a new family tries to find space they are saddened by the fact that there is not enough

room. Now this is a matter for everyone to do something about. There are a number of ways to go. Either secure ample acreage for a modern cemetery north of the present one, with a wide drive-way between the old and the new, and then with wide and modern drives for the new acreage or secure some other location in some other area near Hamlin, and if this should be done, it should be selected with soil and water as good as can be obtained. Any new space should be laid out to fit an age suitable to the automobile.

It does not hurt to look forward, even if it does point to a cemetery. Especially do we compliment Mr. Proctor.

Mrs. O. M. Stice returned home Wednesday from Carter, Okla., where she has been with her mother, Mrs. W. P. Smith who has been seriously ill. Miss Faye Stice remained at Carter for a visit.

W. W. Greenway Died At Hospital In Borger

W. W. Greenway, a former farmer of the country south of Hamlin, died at a hospital in Borger, Texas, about 1:30 P. M. Thursday, April 4, following a long period of suffering from asthma and heart complications.

Mr. Greenway was a citizen of Jones county and in and near Hamlin for 35 years and his friends were numbered by all who knew him. He had lived on the same farm about 20 years and the best of his life was spent in this section.

William Warren Greenway, was born in Tippa County, Mississippi, November 30, 1874 and was at the time of his death 65 years, a month and 4 days of age. He was married to Sarah Lydia Reynolds, in Abilene, a daughter of a Baptist minister, in 1896. To this union the following children with their mother survive: Rupert Greenway of Electra; Mrs. Olin Griffin, Colorado City; Mrs. Alfred Palmer of Plainview; Thomas Greenway, Mrs. Quentin Potts and Miss Thaxter Greenway, Warren Jr., and Peggy, of Borger.

The surviving brothers are: John, Carl and Roscoe Greenway of Hamlin; Walter Greenway of Crowell and the sisters are Mrs. Sallie Goedecke and Miss Lennie Greenway of Hamlin; Mrs. Lula Ross of Abilene; and Mrs. R. E. Walker of Plainview. All children and brothers and sisters were in attendance at the funeral.

The out-of-town relatives and friends attending the funeral which was held at the First Baptist church in Hamlin, Friday afternoon, included E. E. Reynolds of Abilene, W. E. Reynolds and family of Munday, Mr. and Mrs. Will Hays and Paxton Hays of Merkel, Mr. and Mrs. Alfred Greenway of Snyder, Jimmie Franklin of Crowell, Mrs. Robinson and Miss Ellie Gloddie of Abilene, Judge and Mrs. Howard Davison, Mrs. Ernest Davis and Mrs. Armon Birdwell from Rotan; Mrs. Katherine Estes of Sayer Oklahoma; Mr. and Mrs. J. D. Greenway of San Angelo and O. H. Griffith, Sr., of Haskell.

Funeral services were conducted by Rev. J. Henry Littleton of Abilene, a former pastor. The body was returned to Hamlin from Borger by the Carver Funeral Home, accompanied by Rev. Ira M. Powell, Educational Director and assistant pastor of the Baptist Church of that city. The song service was given by a quartet composed of Rev. Powell, Travis Dean, Mrs. W. C. Russell and Mrs. Henry Albritton. The solicitude and devotion shown by Mr. Powell to the bereaved family was greatly appreciated by all members and other relatives and friends.

Mr. Greenway was a very likeable man, and wherever he went he built up a circle of staunch friends. High tributes were paid him at the funeral in word and song. Many lovely

BAPTIST CHURCH

The revival is still on! In spite of rain and other hindrances, we had 287 in Sunday School last Sunday, and two of the best preaching congregations we have had except during the revival. Six made public professions of faith in Christ and two rededicated their lives. This is as it should be! From Sunday to Sunday the church should be filled and people should be coming to Christ.

We are anxious for all the members of the First Baptist Church to be in both services Sunday. Some things of interest to all will be discussed. We are looking for that 310 in Sunday School, and believe we will have that number. We are also looking for a larger number in our Training Unions. We are organizing a new Senior Union Sunday night. The young people are coming and they are working. After the night service a fellowship circle will form in the pastor's home. The young people want to get better acquainted with the pastor and his wife and the pastor and his wife want to get better acquainted with the young people.

Now a special word! The service Sunday night will be unusual. Both church ordinances, Baptism and The Lord's Supper, will be observed. Promptly at 7:45 you will be privileged to see several of your friends baptized in the beautiful baptistry. You who attended the service the last night of the revival will never forget that impressive scene. Following the baptismal service, the pastor will speak on the church ordinances. You should hear this Bible discussion. Following the message the Lord's Supper will be observed. We are expecting this service to be most impressive and instructive.

METHODIST CHURCH

Rev. John W. Hendrix, Pastor

Yes, it is even so. It is reported over the land that the people are feeling a back-to-church urge and many are answering that urge. It seems so with us; attendance is decidedly on the increase. Why not you be next?

Church school, with its different classes, for all different sizes and ages, opens its session at 9:45 A. M. each Sabbath.

PUBLIC WORSHIP makes its offering, beginning at 10:50, and maybe you have overlooked the exact hour. The choir will appear under the leadership of Glen Caffey. It will lead in the worship with a well prepared musical program. The pastor will use as subject, "The House The Gallilean Carpenter Built." Maybe you've seen it, or maybe you haven't. Let's define it, go through it and think it over together.

EVENING WORSHIP is parked between these two dates, 7:30 and 8:30. It is attracting a growing crowd. No service of the church can be made to mean so much to a community as this one. It has this added attraction to offer: The District Superintendent, Dr. C. A. Bickley, will deliver the sermon. All together this is a worthwhile occasion.

League meets at 6:45. The Intermediates in the King's Daughters room, and the Young People meet in their room. Also on this coming Saturday and Sunday the District League conference meets in Albany, with a promise of a profitable session. Some of our young people are slated to attend.

Dr. and Mrs. George D. Thurman made a hurried trip to Eddyville, Neb., last week. They left on Tuesday and arrived home Saturday. On their trip they passed through a real dust bowl that made them feel this country is an oasis.

Ed Evans returned Saturday night from Excelsior Springs, Mo., where he had been called by the serious illness of a nephew, and Mrs. Evans had a call to go to one of her relatives, a sister, Mrs. Deering in Fort Worth who was very ill. Mrs. Evans returned Monday.

Romance

A Modern Linerider on the Range

"...for he's a jolly good fellow"

HE'S no softie, this Modern Linerider. Like the old-time cowboy, his work calls for plenty of nerve. His face is sunburned. His muscles are hardened by many hours out-of-doors, climbing 50-foot poles and clinging tenaciously to cross-arms while dodging "hot" wires that might otherwise send him hurtling to the ground—and sudden death.

He works under tremendous pressure. Many of his jobs are like that at Clyde, struck by a tornado on June 10, 1938, in which 12 persons were killed and communications completely disrupted. Linemen rushed to the stricken area and had light and power service restored just 32 minutes after the tornado hit. Sometimes it is an immediate need for electric power, such as occurred in the McCamey area when oil first was discovered. A hundred miles of

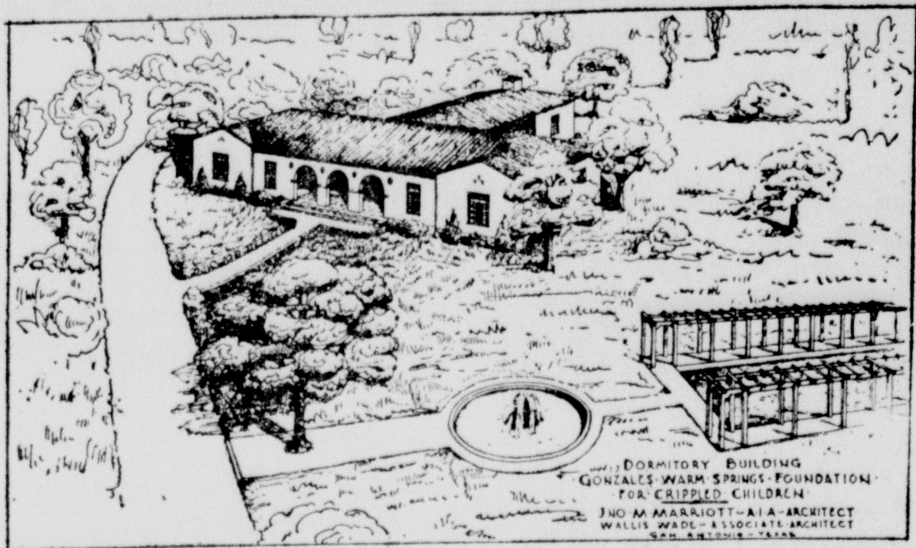

line were built and put in operation in the world' record time of exactly 60 days.

Some are college graduates. Others have the equivalent in actual experience. All are highly trained and skilled workmen. They work hard—and play hard. They are good citizens, loyal to their communities and supporting civic enterprise. They are among the hundreds of men and women working "behind the scenes" to make Electric Service efficient, dependable and economical here. On them we bestow a title of honor—"Modern Lineriders."

On full display will be the beauties of the park for the ceremonies Sunday, with all the natural wonders of the park, the rare and beautiful flowers, tropical like ferns and delicate orchids being arranged in a wild flower show by the Ottino Garden Club.

Vegetable Laxative Makes Happy Friends

Here's a laxative that usually acts thoroughly as harsher ones but is a gentle persuader for intestines when used this way: A quarter to a half-teaspoonful of spicy, aromatic BLACK-DRAUGHT on your tongue tonight; a drink of water. There's usually time for a good night's rest, with a gentle, thorough action next morning relieving constipation's headaches, biliousness, sour stomach, bad breath.

BLACK-DRAUGHT is a splendid combination of vegetable ingredients, chief of which is an "intestinal tonic-laxative" that helps impart tone to lazy bowel muscles. It's economical. 25 to 40 doses; 25c.

PARTNERS IN A GREAT TEXAS ENTERPRISE

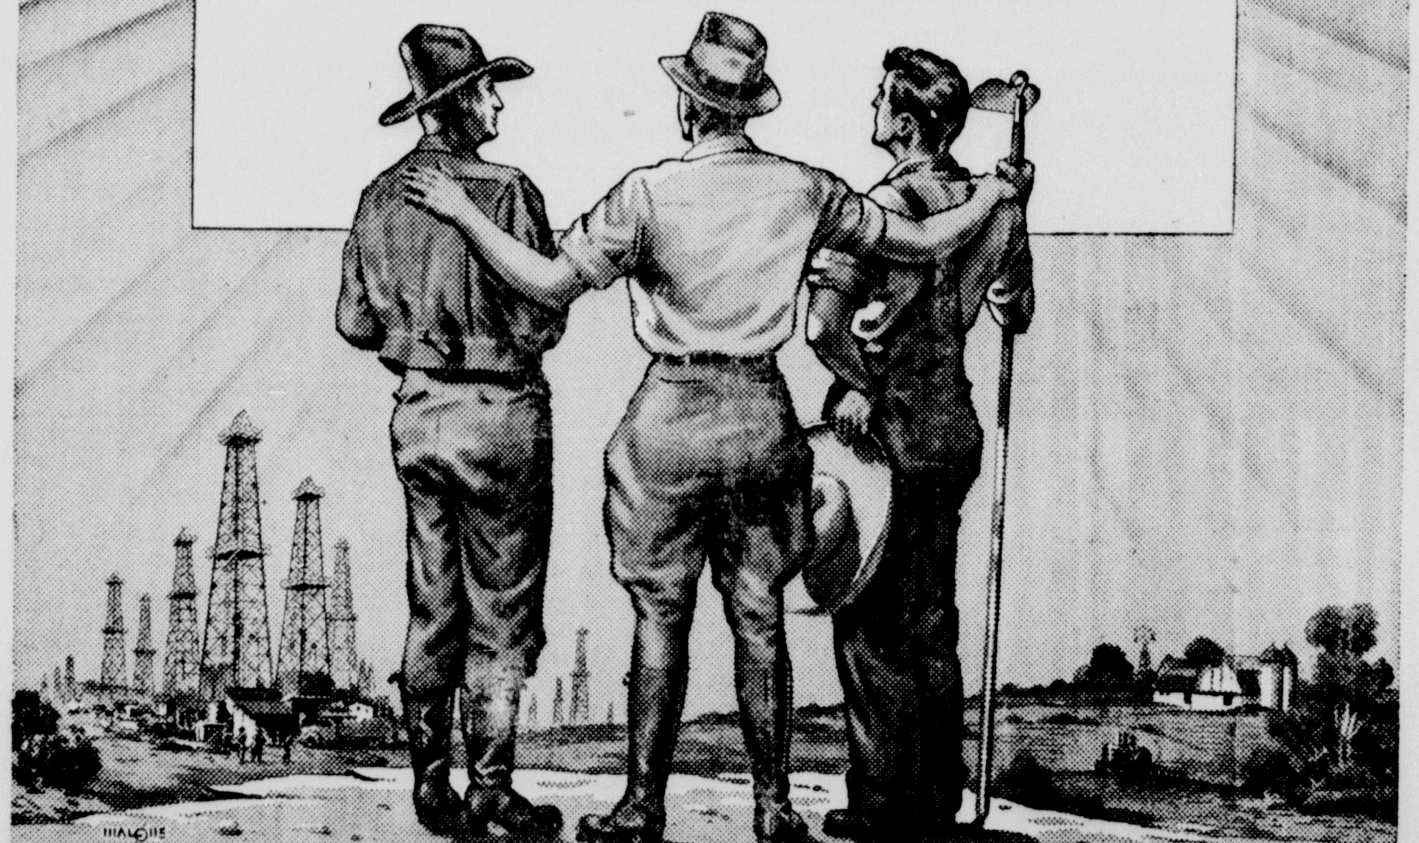

TEXAS farmers and ranchers received last year from oil men the huge sum of \$132,478,000 for leases and royalties as their share in this partnership.

All but seven of Texas' 254 counties now share in this cash return from leases and production on more than 50,000,000 acres of Texas land.

Then, too, the Texas farmers and ranchers sell to oil workers and their families more than \$60,000,000 worth of farm and livestock products each year.

Thus the farmers and ranchers of our state receive nearly 200 million dollars a year as their share of oil's total expenditure of 750 million dollars annually in Texas. These 200 million dollars in turn flow into every channel of Texas trade.

The Texas farmer and rancher and the oil man are partners in the development of Texas.

Schubert Club Entered With Tea

The Schubert Club was hostess to clubs of neighboring towns when they entertained with a musical tea Wednesday afternoon at 3:30 o'clock at the Methodist Church.

The occasion was the annual Reciprocity Program which was given by the Music Lovers' Club, of Anson, Stamford Music Club, Harmony Club, of Haskell and Schubert Club, of Hamlin, each contributing a choral number to the program. Mrs. Heflin Miller gave a review of Paderewski's Memoirs, and Mrs. Byron Lewis, of Stamford, guest speaker, gave an interesting talk. Bridalwreath and clarkia were used in decorating the auditorium where the program was given and also added attractiveness to the entertaining room where tea was served by club members.

Mrs. L. H. McBride, club president, greeted guests at the door and Mrs. A. A. Hackley, vice-president, secured guest's names in the register.
